CCRN CARDIOLOGY HIGHLIGHT SERIES

ESC HIGHLIGHTS 2026

MONDAY, SEPTEMBER 21

7:00 – 8:30 pm ET

Developed by: CCRN Collaborative CME and Research Network

Program Overview:

This program covers key clinical trial findings and their implications from the ESC scientific sessions. This program is intended for cardiovascular specialists and primary care physicians.

Learning Objectives:

Following participation in this program, participants will be able to:

- Identify the clinical implications of the new data presented at the scientific sessions
- Examine where the data presented may impact clinical practice guidelines
- Apply the latest evidence-based strategies in clinical practice

Discussion Topics:

- Latest updates in AF management
- What is the impact of a gene silencer in patients with ATTR?
- What is the long-term safety and efficacy of Mavacamten for hypertrophic cardiomyopathy?
- Are statins safe and effective in the elderly?
- What is the impact of combination statin and Evolocumab at the time of ACS?
