

APPLYING THE 2021 CCS LIPID GUIDELINES

Thursday, September 30, 2021

7:30 - 9:00 pm EST

Program Description:

This program will explore diagnostic and management issues through challenging patient cases. CCRN's Stump the Experts format will place notable Canadian lipid experts on the hotseat as they are asked to diagnose and manage challenging patient cases that may stretch the boundaries of the guidelines.

Submit a challenging patient case to be considered for presentation and discussion using the QR code link below.

Submit your challenging patient case!

The submitters of the top 3 most challenging cases will receive a \$100 Amazon gift card!

Target Audience:

Interventional, clinical and preventive cardiologists, general internists, primary care physicians and pharmacists

Learning Objectives

- Define guideline-centric strategies to screen patients for cardiovascular risk
- Apply guideline-centric treatment strategies to reduce cardiovascular risk for primary and secondary prevention high-risk patients
- Discuss concerns with statin intolerance and very low achieved LDL levels
- Explore emerging lipid therapies and their role in future guidelines and practice

OUR SPEAKERS

Milan Gupta

MD, FRCPC, FACC
Chair, Cardiologist
Brampton, ON

Vivien Brown

MDCM, CCFP, FCFP, NCMP
Moderator, Family Medicine
Toronto, ON

Jacques Genest

MD, CM, FRCPC, FACC, FAHA
Cardiologist
Montreal, QC

David Lau

MD, PhD, FRCPC
Endocrinologist
Calgary, AB

Eva Lonn

MD, MSc, FRCPC, FACC
Cardiologist
Hamilton, ON

This program was developed by the Canadian Collaborative Research Network and received an unrestricted educational grant from Amgen, HLS Therapeutics, and Novartis.
