

Controversies and New Directions in Lipid Management

Tuesday, July 8th, 2025

7:30 - 9:00 pm EDT

Program Description:

This engaging program will highlight practical strategies for primary and secondary prevention of cardiovascular disease. Leading experts will challenge one another with complex, real-world cases, sparking in-depth discussion on guideline-based care, key biomarkers, and emerging approaches to cardiovascular risk reduction.

Target Audience:

Canadian cardiologists, endocrinologists, general internists, primary care physicians and pharmacists

Learning Objectives:

- Evaluate and apply Canadian guidelines for the primary and secondary prevention of cardiovascular disease
- Assess the impact of elevated triglycerides and Lp(a) on cardiovascular risk and apply evidence-based strategies for risk reduction in primary and secondary prevention
- Discuss emerging evidence and evolving approaches to ASCVD management

OUR SPEAKERS

Milan Gupta

MD, FRCPC, FCCS, CPC(HC)
Chair, Cardiologist
Brampton, ON

John Mancini

MD, FRCP(C), FACP, FACC
Cardiologist
Vancouver, BC

Iulia Iatan

MD, PhD, FRCPC
Clinician Scientist
Montreal, QC

Vivien Brown

MDCM, CCFP, FCFP, NCMP
Family Physician
Toronto, ON

This program was developed by the Collaborative CME and Research Network and received unrestricted educational grants from HLS Therapeutics, Merck and Novartis.
