PROGRAM OVERVIEW

The conference will provide a focused review of the latest screening, prevention, and patient management strategies. The goal of this conference is to equip physicians to identify patients with urological conditions early and to provide evidence-based, guideline-centric care to improve patient outcomes.

AGENDA

Session 1 – Wednesday, February 1, 2023

Learning Objectives

- Implement appropriate screening, investigation and referrals for patients with kidney stones/cysts and microhematuria
- Define evidence-based screening approaches for GU cancers
- Identify when to refer to oncology and explain evidence-based treatment options

Time	Talk	Name
8:00 PM	Welcome	Dr. Anil Kapoor
8:05 PM	Common Problems in Urology Part 1	Dr. Jennifer Locke
8:50 PM	Question and Answer Period	All Faculty
9:15 PM	Early Detection of GU Cancers	Dr. Anil Kapoor
9:45 PM	Question and Answer Period	All Faculty
10:00 PM	Closing Comments	Dr. Anil Kapoor

Session 2 – Wednesday, February 8, 2023

Learning Objectives

- Implement appropriate screening strategies and treatment options for UTIs, low testosterone, and erectile dysfunction in primary care
- Define evidence-based screening and treatment approaches for overactive bladder
- Identify common male lower urinary tract symptoms, benign prostate enlargement, and define appropriate treatment strategies for these conditions

Time	Talk	Name
8:00 PM	Welcome	Dr. Anil Kapoor
8:05 PM	Common Problems in Urology Part 2	Dr. Jeff Campbell
8:45 PM	Question and Answer Period	All Faculty
9:00 PM	Overactive bladder in 2023	Dr. Lysanne Campeau
9:20 PM	Contemporary Male LUTS Management	Dr. Dean Elterman
9:40 PM	Question and Answer Period	All Faculty
10:00 PM	Closing Comments	Dr. Anil Kapoor
