

A Paradigm Shift in Anticoagulant Therapy: The Promise of Factor XI/XIa Inhibitors

Get your questions around anticoagulation for stroke prevention answered by the experts!

Wednesday,
June 26, 2024
7:00 - 8:00 pm EDT

Milan Gupta

MD, FRCPC, FCCS, CPC(HC)

Assistant Professor,
Department of Medicine, University of Toronto
Medical Director, CCRN
Brampton, ON

Shaun Goodman

MD, MSc, FRCPC, FACC, FAHA, FESC, FCCS

Associate Head, Cardiology,
St. Michael's Hospital, Unity Health Toronto
Associate Director and Senior Scientist,
Clinical Trials and Translation Unit, Peter Munk Cardiac
Centre, University Health Network
Professor, Department of Medicine,
University of Toronto
Adjunct Professor, Department of Medicine,
Co-Director, Canadian VIGOUR Centre, University of Alberta
Toronto, ON

Join this engaging discussion to explore the potential role of novel Factor XI/XIa inhibitors in stroke prevention, and to have your questions around anticoagulation for AF answered.

Learning Objectives

Following participation in this program, participants will be able to:

- Review the mechanisms underlying the potential superior safety of Factor XI/XIa inhibitors
- Discuss the results of preliminary clinical trials with these new agents
- Explore the role of these new agents in AF stroke prevention
